“From This Moment...”

“No matter where I’m going, I’ll remember where I’ve been.”
 (Author Unknown) We move towards our future and leave behind the past. The times we’ve shared at Berkley Community School will always last.

Mr. Kevin Dykas (A.K.A. "Mr. D"), you were our physical education teacher for seven years until this past year when you left to pursue teaching at another school. The class of 2001 would like to thank you for your commitment to the students at Berkley Community School. We enjoyed the games, spirit and the time you have spent with us.

You have had a positive impact on all of us and you will be missed a great deal. We wish you good health and much happiness in your new position. We hope you will come back to visit us and we will always remember the following:

- "Mr. D's dodge ball"
- "Punt, Pass and Kick"
- "There for the good times and the bad"
- "Mr. Wizard"
- "He never gave up on us"
- "Always pushed you to the best of your ability"
- "Always fun and understanding"
- "Taught us what teamwork meant"

Best Wishes Always
The Class of 2001

STUDENT COUNCIL

It's been an awesome year here at Berkley Community School. One that some of us will never forget. When I think of all the members of our class, the class of 2000-2001, I am amazed with the amount of possibility I see. Any member of our class has the potential of something great, something worthwhile. The difference between those who will succeed and those who will fail is often how badly the goal is wanted. If you really want something don't ever think you're not good enough. Never give up and never, above all else, give less than your absolute best. These few things our school has taught us well. If we take nothing else from Berkley into the real world, let us take these values that the people here have worked so vigorously to teach us.

Remember the good times and learn from the bad. As we all begin the separation of paths, only the first of many we'll face in our lives let me offer you my sincere thanks for all the fun and enjoyment this class has brought to our last year at Berkley. Best of luck to you all as you face whatever the future might have in store for you.

OUR FUTURE

*We have lived so many years
together.*

It's hard to say goodbye.

*We have lived so many years
together.*

It's hard not to cry.

*All the memories and good times we
shared.*

Are all over now.

We will all go on with our lives.

*And put these memories to the back of
our minds.*

We will never forget the crowds in the hallways.

Never forget each other's faces.

But we will forget the disagreements we had shared.

We will forget the harsh words that some of us spoke.

We will forget all the hard times passed among us.

But we won't forget each other.

That is our future.

This was our past.

The thing we shared here.

Will always last.

By: Caitlin Barrett

I'll Never Forget

I still remember the start, first day of kindergarten and now to imagine all of us apart. We're all going our separate ways from here we just count the days. I can't imagine all the unfamiliar faces, or not knowing my way around. In time we'll all learn to cover the ground.

From here it's all so unclear, I think from the beginning, getting ready for high school everyone has some fear. We've got a lot of great memories of this school, even when we didn't follow every single rule. I'll definitely remember Berkley forever; it's one of the few memories that I never want to sever.

our world

Voices in the news from every corner of the planet rocked the world! We continued our quest for freedom for all people and looked forward to the 21st century with optimism and determination.

Checkmate! World chess champ **Garry Kasparov's** 15-year reign was finally broken by his former student, **Vladimir Kramnik**.

Mother Nature's Foul Temper Planet Earth didn't let us off easy this year. We weathered ice storms, heat waves, droughts, floods, and one of the most severe wildfire seasons in U.S. history. Aid from around the world poured into western **India** where thousands died in the most severe earthquake in the country's history.

Too Close to Call? While the world watched, **Florida** manually counted and recounted thousands of ballots, dragging the presidential election on for six weeks. Finally, after tallies showed Texas Governor **George W. Bush** winning the electoral college vote by a margin of 271 to 267, and losing candidate Vice President **Al Gore** finishing with the popular vote, Mr. Bush was declared the 43rd president of the **United States**.

George W. Bush grew up in Midland, Texas, doing the regular kid thing: biking around town, playing little league baseball, and fishing with his dad, former **President George Bush**. George W., with the support of his wife Laura, promised to build "a single nation of justice and opportunity," highlighting education as a top priority during his administration.

science, learning and technology

Advancements in technology rapidly changed the way we communicated, worked, learned, and relaxed. Groundbreaking research and development brought us a whole new way to look at our past, present, and future.

Big-Boned Sue The past shed light on our future with the discovery of a **T. Rex Named Sue**, 67 million years after her death. Named after fossil hunter **Sue Hendrickson**, Sue was the largest *Tyrannosaurus rex* fossil ever found. On the other end of the size chart, microbiologists discovered 250 million-year-old bacteria imbedded in salt crystals below the desert floor.

What a Sight! A new laser-assisted procedure called **Lasik** helped thousands chuck their glasses. Genetic disease research got a big boost when **J. Craig Venter**, **Francis Collins**, and the **Human Genome Project** team decoded human **DNA**.

Friends For Life

The number of species on the endangered list ballooned to over 1,000, with nearly 100 more becoming extinct every day. We worked to reverse this man-made trend by reintroducing many species, such as wolves, sea turtles, and golden lion tamarins, back to their natural environments.

Weaving a Web The World Wide Web took us on some amazing rides! Students all over the world used the Internet to follow the adventures of explorers **Ann Bancroft** and **Liv Arnesen** (2,400-mile ski trek across Antarctica) and **Dan Buettner** (MayaQuest 2001).

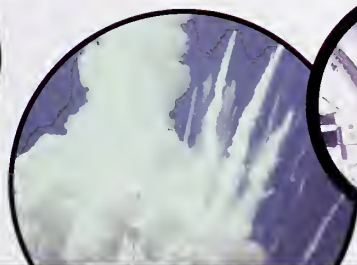

Helloooo? Despite health warnings and increased car accidents, cell phones were seen everywhere. Some states introduced legislation to ban the use of cell phones while driving.

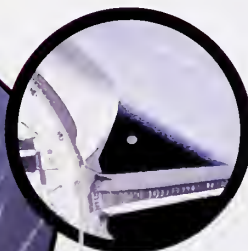

3-2-1 Blast Off! Space exploration hurtled forward at full tilt. The **International Space Station** became home to three astronauts, the first humans to live in outer space, and NASA developed the "Robonaut," built to do repairs on the Station. Space Shuttle **Discovery**, launched in 1984, made its 100th flight into space, while the **Mir** Space Station ended its 15-year odyssey in orbit. talk of the year

We went retro, high-tech, and hip, surrounded by a popular culture that embraced a wide range of hobbies and new products. In our daily lives, we carved out our niches with activities that were educational, artistic, and pure fun!

Toys Are Us The nostalgia craze brought us **scooters**, and we went gaga over these wheels, shelling out anywhere from \$50 to \$2,500! Another retro win was the unveiling of the 1940's retro-style **PT Cruiser**, the biggest launch in Chrysler's history. The new **Sony Playstation 2** featured the coolest in computer animation, and thousands of game geeks camped outside retail stores, hoping to get their hands on the first release. Another new toy, a battery-operated robotic puppy, barked its way into homes from Tokyo to Tallahassee.

Quidditch, Anyone? We went nuts over Harry, and thousands of us lined up the night of July 7th to score a copy of J.K. Rowling's fourth installment, **Harry Potter and the Goblet of Fire**. Although some parents and teachers questioned the concept of magic, no one could argue with students' newfound love of reading!

Food, Glorious Food! Blame it on our hectic lives, but our preference for high-fat fast food brought expanding waistlines, with 10% of Americans ranked as overweight. Everywhere we turned, we found talent galore! We made the most of what surrounded us by spending our free time and spare change escaping into books, movies, electronic media, music, and television.

Movie Mania Canadian funny guy Jim Carrey starred in *The Grinch* which grossed \$55 million on opening weekend! Denzel Washington brought the true story of *Remember the Titans* to life, Tom Cruise came back for more thrills and spills in *Mission Impossible 2*, *Charlie's Angels* got a facelift, Mel Gibson's studly chicken saved the day in *Chicken Run*, and *Castaway's* Tom Hanks spent four years on an island with his ball, Wilson.

Teens Rule TV shows starring teens were hot again this year. We grooved on *Malcolm in the Middle*, *Buffy the Vampire Slayer*, *Popular*, *Felicity*, *Moesha*, and *Dawson's Creek*. And fans rallied to give *Freaks and Geeks* a second life.

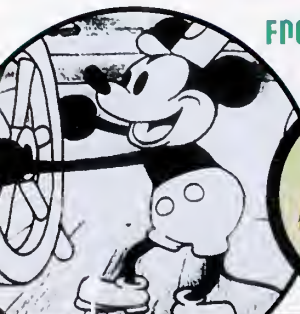

Different Notes for Different Folks Styles all their own, you bet. But every one of these pop singers shares the gift of super high energy, all out performance, and great moves!

Minors with Major Talent

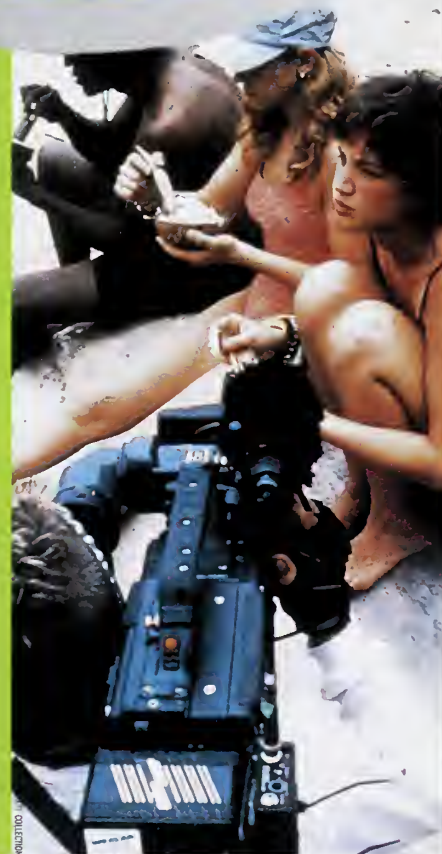

Ron Howard, director of *The Grinch*, started his acting career when he was only six, with leads in *The Andy Griffith Show* and later in *Happy Days*. Another young talent, 13-year-old Haley Joel Osment, star of last year's *Pay It Forward*, had already appeared in four major films when he was nominated for an Oscar for *The Sixth Sense* at age 11.

Country Crooners Country music was all over the airwaves. Big winners were the Dixie Chicks, husband and wife Tim McGraw and Faith Hill, and Shania Twain. While superstar Garth Brooks announced he was hanging up his guitar and famous black hat, 12-year-old newcomer Billy Gilman opened for Reba McEntire.

The Real Deal We went nuts over reality TV shows, catapulting *Who Wants To Be A Millionaire?*, *Survivor*, and MTV's *Road Rules* and *Real World* to the top of the charts.
